

Pricing

Your investment is comprised of two parts. The first is the session fee, which includes my time and expertise, pre-session consultation, use of my props and custom-made clothing, and custom post-processing of your images. This fee does not include any prints or digital images and is non-refundable. It is due at your booking as a non-refundable retainer to hold your session date. The session fee is \$125 plus tax.

The second part of the investment is the products. After your session is complete, I will upload your images onto my website's online gallery for you to view. You must place your order within 30 days. From this gallery, you may choose from the a' la carte pricing or the collections. With purchase of edited digital images, you will receive a print release to print them as you wish.

There is a minimum order of \$200 on the a' la carte selections if you are NOT purchasing a collection. If you choose a package with a print credit, you may choose any product from the a' la carte menu with your credit. All products and services are subject to Oklahoma sales tax.

Maternity Collections

Maternity sessions are generally scheduled when the mom-to-be is 28 to 32 weeks along. During this time your belly is nice and round and you're feeling great! It's best not to wait until the last few weeks, so you won't be uncomfortable, swollen and out of breath. I have a full wardrobe of various styles of maternity gowns for you to choose from. Nudity is always optional and very discreet. Maternity sessions are approximately 45 minutes and you may choose to have your session in my studio or on location. Significant others and children are always welcome to join the session, but the focus will always be on the expectant mother.
