

## *Pricing*

Your investment is comprised of two parts. The first is the session fee, which includes my time and expertise, pre-session consultation, use of my props and custom-made clothing, and custom post-processing of your images. This fee does not include any prints or digital images and is non-refundable. It is due at your booking as a non-refundable retainer to hold your session date. The session fee is \$100.

The second part of the investment is the products. After your session is complete, I will upload your images onto my website's online gallery for you to view. You must place your order within 30 days. From this gallery, you may choose from the a' la carte pricing or the collections. There is a minimum order of \$200 on the a' la carte selections if you are NOT purchasing a collection.

## *Maternity Collections*

Maternity sessions are generally scheduled when the mom-to-be is 28 to 32 weeks along. During this time your belly is nice and round and you're feeling great! It's best to not wait til the last few weeks, so you won't be uncomfortable and out of breath. I have a full wardrobe of various styles of maternity gowns for you to choose from. Nudity is always optional and very discreet. Maternity sessions are approximately 45 minutes and you may choose to have your session in my studio or on location. Significant others and children are always welcome to join the session, but the focus will always be on the expectant mother.
